Continuation of 4(e) Other: Claim 1, as presented on 4/9/2009 included limitations associated with "a processor," where the processor was "communicatively coupled to a memory, said memory having stored thereon computer-executable instructions configured to implement the profile building system including." However, the claims submitted on 1/21/2010 does not include this subject matter, and does not include markings indicating that this subject matter was removed. As noted in the notice of non-compliant amendment issued 1/6/2010, "Applicant should ensure that the markings completely and accurately reflect all changes made to the instant claims from the claims as previously presented on 4/9/2009." Thus, Applicant must review the remaining claims in their entirety to ensure that all the changes made from the claims filed 4/9/2009 are completely and accurately reflected in the claims submitted in response to this notice..
